

Tracking Credit Card Payments

What is Official Payments?

Official Payments is a secured, third-party website that processes credit card transactions in Citizen Access, and is also used by the County's Tax Collector for online property tax payments. When a user selects and "checks out" in Citizen Access the permit fees that he/she would like to pay for, the payment total is automatically communicated to Official Payments where the user will be prompted to input his/her credit card and billing information.

What is the service fee for using a credit card? What does the service fee pay for?

A 2.75% service fee will be added to your online payment. This service fee is not received by the County; it is used to process your transaction using the Official Payments website.
